As part of MPRO's Behavioral Health Initiative (BHI), we have developed a comprehensive list of community resources that are helpful for those treating and providing services to patients with behavioral health issues. This document is intended to be used as a resource guide of referral sources that our providers most frequently use. The guide will be updated two times per year to maintain its relevance. If you have any additions, comments or corrections to the guide, please send them to [info@lsqin.org](mailto:info@lsqin.org).
