

Directed Plans of Correction

SUPERIOR HEALTH

Quality Alliance

If your facility has received an enforcement letter requiring a Directed Plan of Correction from a Federal survey and you would like to work with Superior Health Quality Alliance (Superior Health), **please send an email to** <u>ddohm@metastar.com</u>, <u>jana.broughton@improve.health</u> and <u>patricia.leonard@improve.health</u> and include in your email the following information:

- 1. Centers for Medicare & Medicaid Services (CMS) Certification Number (CCN) for the facility.
- 2. Contact names, emails and best phone numbers for the facility leadership team that will be involved in completing the plan of correction.
- 3. A copy of the enforcement letter as well as the F tags from the 2567 included in the directed plan of correction: (F880, F884, F887).

Upon receipt of your email a quality improvement advisor from Superior Health will contact you via email and by phone.

What does a Directed Plan of Correction (DPOC) supported by Superior Health include?

- Root cause analysis (RCA) using a five why or fish bone tool along with support for written summary.
- Developing a written action plan with interdisciplinary team.
- Education resources and assistance with developing an education plan.
 - Superior Health may provide virtual education assistance.
- Audit examples and support with audit development for improvement projects.
- Infection Prevention and Control Assessment and Response (ICAR) tool.
- Onsite infection control visit with nationally recognized infection preventionist.
- Ongoing review of audits and compliance data.

If a facility needs assistance writing or completing the plan of correction written document, Superior Health recommends partnership with a private consulting organization.

Responsibilities of the facility with a DPOC. This is what is completed post submission of original F tag for F880/F887.

- 1. Monitor all communications with the licensing team/survey if needed.
- 2. Delivery of recommended education either listed in the enforcement letter or those identified through the root cause discussion.
 - a. All staff must be educated prior to working with residents by the date you state your building will be in substantial compliance with F880.
 - b. A plan must be established to capture staff who are on leave or work very intermittently.
 - c. A plan to educate any contracted/agency staff should be included.
 - d. A post-test must be part of the education to validate competency and mastery of the information provided in the education.

- 3. Schedule an ad hoc Quality Assurance and Performance Improvement (QAPI) meeting for an interdisciplinary team including medical director to review the RCA and action plan developed with Superior Health.
- 4. Begin audit process for identified gaps in RCA to assure ongoing compliance is achieved and maintained.
- 5. Assemble all documentation for submission to the state survey agency via directions from enforcement letter.
- 6. Submit all documentation to the state survey agency per directions of enforcement letter/state survey agency.
